TRAVELING GAMBLERS .- Among the pasenvers on the railroad train which arrived in this city last night from Richmond were two men, who, by their actions, created some susricion in the minds of the employees on the train that they were not exactly proper characters. It was not long before these suspicions proved correct. In the same car with the two tractors was a contleman dressed in a neat but home soun suit of clothes. When between this ery and Washington one of the men took the vacent sest beside our rural friend, and the other the seat immediately behind him. The first man, after engaging the man beside him memversstion, drew from his packet a small box, on the inside of which was a small block et wood, and made the remark that it was a very curious contrivance; that he came across it is Richmond, and purchased it. He then stated that he could place the block of wood in the bax, in the presence of a crowd, and cause it to disappear without his touching the box, whereupon the man tecupying the rear seat offered to bet five dollars he could not perform such an impossible fest. The bet was taken, and suce enough the block failed to disappear. All three, then engaged in a conversation, and the country man was induced to stake five delhere. The bleck was placed in the bex, and everything was ready for sonoping in the five dollars, when the conductor came in and seattered the party. It would seem that if the news, spers contained accounts of swindles on radicad trains every day there would be many who would still bear the scratches of that "playfal animal;" indeed, it would seem that a large percentage of the human race would rather be humbagged than not. No thoughtful person ere sean the advertisements in certain sily pubbeations of "pic ures" of future husbands and wives, beard "producers," "fortunes," made essy. &s, without thinking of the immense number of people susceptible of gullability in this world; for sucely there must be many cus tamers for such trash, else their manufacturers could not afford to advertise so excessively.

THE MISSING MAN RETURNED. - Robert Wright, the man reported yesterday as having been missing from the schooner M. A. Davis, from Philadelphia, Captain Isaiah Long, lying at W. A. Smoot's dock, since the night previ ous, and for whose body the hands on the vessel were engaged all yesterday evening in dragging the river, supposing him to have been drowned, returned to the vessel this merning, in the lanruage of the Captain, "As crizy as a loop." The man could not tell where he had been, or who he had been with. All he remembers is that he found him wif early this morning sitting upon some latte tridge in Petersburg in a bewildered exedition. It is thought by the Captain that he was entired into some house in the neighborhool of the bridge where be found himself, drugged, and robbed of the little money he had and then sent adrift.

MUNICIPAL.—The committee on police of the City Council met lest night and considered the resolution referred to them, authorizing the insuing of warrants for a month's pay to Arthur Simpson and Samuel Ticer, for services rendered to spolicemen among the late police emtroglio.

The joint of mmittee of the City Council to whom was referred the petition of Mr. Wm. McVeigh in regard to city taxes, which was to have met last night, did not transact any business for want of a quorum. A meeting of the from the tobacco regions are very unpremising. The Baltimore Sun thinks that it is probable during the warm months, but the prospect for a healthy revival after the settlement of the Presidential and other political questions in the fail are considered encouraging. The most gratifying feature of the situation is the very limited and (complete by Mr. Charles Harrison. The number of failures that are reported, and the growing tendency for conducting all business upon a cash or short credit system. Money matters are quiet, there being no pressing demand or superabundant supply. In Baltimore the markit is decidedly easy, and complaint of a scarcity of paper offering among banks and money dualers is very general. Loans are quoted at 4.5 per cent on Government and other first clats collateral, and at 5a6 on acceptable miscellanecus stocks and bonds. In New York money is very easy, round amounts being offered to leading Stock Exchange houses until January 15 1881, at 5 per cent, and until December 1st next at 41 per cent on stock collateral. Government bends are firm. The 4 per cants elecal yesterday at 1075a107f for registered and small coupons, and 1074 bid for regular coupon bonds. State bonds are quiet. Virginia consols were a fraction higher yesterday, and sold at 512, closing £51,654. The 10-10s were nominal at 39,40, and tax coupons were strong at 921a93 for consol and 971a98 for 10 41 detached. Railroad stocks continue dull, the quotations for Baltimore and Ohio being entirely nominal, and nothing doing in lead shares. The announcement that the sale of the Virginia Midland railroad is void, will, in all probability, have a depressing effect upon the various classes of the bonds of that company, but strong hopes are entertained that and that the arrangement ontered into with the creditors of the rand will then be carried out.
